Federal Tax Credit Program

The Federal Tax Credit Scholarship Program allows individuals and businesses to receive a federal tax credit when they contribute to approved SGOs. These contributions directly fund scholarships for eligible students. This is how we expect it to work:

- Donors contribute to schools through our SGO and receive a 100% federal tax credit up to $1,700
- Funds are allocated to participating schools based on donor intent, the school's financial aid parameters, and program guidelines
- Schools award scholarships to eligible students, expanding access and opportunity

Student eligibility is determined by the county in which they reside. Any student living in a household at or below 300% of the local area median income, adjusted for family size, may qualify to receive funds for K-12 private school tuition and education expenses.
